Taxes and other Benefits

None.

State tax deduction or credit for contributions:

Indiana taxpayers are eligible for a state income tax credit of 20% of contributions to an Indiana 529 Plan, up to \$1,500 credit per year (\$750 for married couples filing separately). Effective January 1, 2024, rollover contributions and contributions generated through a rewards program are not eligible for the credit. Effective January 1, 2023, the definition of an Indiana taxpayer was revised to include married individuals filing separately. The maximum annual credit allowed for a married taxpayer filing separately is \$750. Indiana residents may elect to treat contributions made through the deadline (excluding extensions) for filing an individual Indiana state income tax return (generally April 15) as having been made in the prior year in order to claim the allowable annual credit on their Indiana state tax return for the prior year. Contributions default to the current contribution year; if you wish to have a contribution made before Tax Day count toward the prior calendar year, include a letter with a mailed check or contact the plan administrator to make the request.

State tax recapture provisions:

The account owner (not the contributor) must repay all or part of the state income tax credit claimed by contributors in prior taxable years in a taxable year of the Recapture Distribution. A Recapture Distribution is a: non-qualified distribution (other than if the distribution is because of the death or disability of the beneficiary, or if the beneficiary received a scholarship that paid for all or part of the qualified expenses of the beneficiary (to the extent that the withdrawal or distribution does not exceed the amount of the scholarship), or a refunded distribution); distribution used to pay K-12 tuition for a school outside of Indiana; effective January 1, 2020, distribution used to make education loan repayments; rollover distribution; or termination of an account within twelve months after the account was opened.

State definition of qualified expenses

The state definition of qualified education expenses includes expenses for higher education and apprenticeship programs, as well as up to \$10,000 per year in tuition in connection with enrollment or attendance at an elementary or secondary public, private, or religious school. Education loan repayments are not considered as a qualified education expense. Distributions from a 529 account directly to a Roth IRA are not considered a qualified expense for state income tax purposes.

State tax treatment of qualified distributions:

Qualified distributions from Indiana and non-Indiana 529 plans are exempt.

State tax treatment of rollovers:

Indiana follows federal tax-free treatment except that outbound rollovers are subject to the recapture of prior state tax credits.
